

CARROLL CHRISTIAN SCHOOLS

TECHNOLOGY DEPARTMENT

PARENT/6th – 10th Grade STUDENT iPad CONTRACT 2019-2020

I have read the *CCS Student Technology Policies* in its entirety. First, I understand that using technology is a privilege and agree to uphold the school policies as stated in the *Parent/Student Handbook*. Second, I am aware that teachers reserve the right to view my screen in class and take my iPad for further investigation if I am abusing technology policies. Teachers or the Technology Manager may also make random accountability checks. Third, I realize the policies may be changed at the Administrator's discretion. If there is a change, the administration will notify me through email, and I will be able to discuss these changes with the Technology Manager or Administrator at any time. Fourth, I understand that failure to abide by school technology policies may result in my iPad privilege being revoked until the end of the semester or longer depending upon the situation. Finally, I am aware that I am accountable to God and His authorities for how I use my technology for good or evil (Psalm 101:2-3). As a result, I resolve to use this device as a tool for school and not a tool for evil.

Grades 6 -10

I understand that teachers will have access to iPad carts that from time to time will allow my student to use a school iPad. I understand that when they are using it, they must follow the iPad guidelines in the Handbook.

I understand that it is a privilege to use the iPad and if the privilege is abused, I will lose that privilege.

I understand that the student is expected to handle the iPad properly, to not goof off with it, or to handle it carelessly. I understand that if the iPad is damaged because of carelessness, I may be responsible.

I understand that I should not be using the iPad for any purpose other than the purpose that the teacher gave it out for.
